Airbus A380 Glass Gauge Checklist (Custom)

*Tested with Project Airbus A380

*This automated checklist is electricity-powered. If the aircraft has it's instrumentals shutdown or no electricity source, this will also shutdown.
*The checklist has 4 colors:
     WHITE: Ordinary text
     GREEN: Checked/achieved procedure
     RED:not yet accomplished
     YELLOW: not yet accomplished, non-priority procedure
*Tested with the Project Airbus a380 using Thomas Ruth's a340 panel.
*Asterisked procedures are non-priority/optional procedures
